Regge theory for discovering exotic mesons

Thursday, 25 June 2026 17:55 (25 minutes)

I will discuss the latest developments in Regge theory, including its applications to the analysis of hadron spectroscopy data, with a focus on exotica.

Collaboration

JPAC/ExoHad

Primary author: SZCZEPANIAK, Adam (Indiana University)

Presenter: SZCZEPANIAK, Adam (Indiana University)

Session Classification: Parallel session A2

Track Classification: Structure of hadrons
